

## *All Day Provision at All Saints Nursery Unit, Bedworth*

Each year we can offer up to 8 full time places where we consider that a child's home life may affect their progress and wellbeing.

The following list gives examples of the kind of child that would be offered a full time place, although we will always consider other circumstances:

1. Children showing a delay in their development, such as speech difficulty, which may have been noted by a Health Visitor.
2. Children with physical difficulties living some distance from school and experiencing transport problems.
3. Children displaying emotional or behavioural difficulties or delays.
4. Children living in inadequate housing, such as cramped living space with little or no garden.
5. Children living with a single parent who may need support (either through death or divorce).
6. Children with parents, brothers, sisters or other dependant family member suffering with an illness or disability.
7. Children with parents who have learning difficulties which may also effect the child's development.
8. Children from families receiving support from Social Services.
9. Children from families with a number of younger brothers/sisters.
10. Children living away from their immediate families.

Before offering places we may speak to other professionals to ask for their advice. The final decision rests with the school's Governing body.
