PRESS RELEASE

We at All Saints C of E Infant School & Nursery Unit were devastated by the incident that occurred involving one of our nursery students on Friday of last week. The incident happened whilst the children were working in the outdoor learning environment. As soon as it was noted that the child was missing, we contacted the police and sent support staff to look around the immediate area. Our student was soon found and returned, unharmed, by a member of staff.

The child's parents were contacted and came to collect their son, whereupon the school expressed its deep regret at the incident and advised that measures were being taken to ensure that there could never be a repeat of this unfortunate episode.

The Headteacher Mr Mark Ingham said "As a school we pride ourselves in our care for our students. A child did escape the safety of our Nursery and plans have been put into place to rectify any possibility of recurrence with the safety of our children uppermost in mind. We have expressed our apologies to the family concerned."
